PEFINDO assigns “idA” rating to PT Mora Telematika Indonesia

PEFINDO has assigned its “idA” rating to PT Mora Telematika Indonesia (Moratel or MRTL). The outlook for the corporate rating is “stable”.

An obligor rated idA has a strong capacity to meet its long-term financial commitments relative to that of other Indonesian obligors. However, the obligor is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than higher-rated obligors.

The rating reflects Moratel's strong market position as a fiber optic backbone provider, potential cash flow from the Palapa Ring West and East packages, and diversified customers and services. However, the rating is constrained by its increasing financial leverage due to sizeable capital expenditure, its weakening cash flow protection measures in the near term, and the execution risks of a new business.

The rating could be raised if Moratel significantly improves its capital structure on a sustainable basis, its business expansions are executed well and its cash flows exceed projections. In contrast, the rating may be lowered if the Company's revenue and/or EBITDA falls significantly below target, or if it incurs debt beyond what is projected.

Moratel is a telecommunications infrastructure and service provider. It has international links connecting Jakarta and Singapore, and domestic submarine and inland backbones serving mainly telecommunications operators and wholesale customers. It expanded to the fiber to-the-home (FTTH) market to maximize the use of its network under the “Oxygen” brand. Its subsidiaries, PT Palapa Ring Barat and PT Palapa Timur Telematika, have been awarded by the government to construct and manage two national priority projects, the Palapa Ring West package in 2015 and the Palapa Ring East package in 2016. As of March 31, 2017, its shareholders were PT Candrakarya Multikreasi (57.5% stake), which belongs to PT Infrastruktur Bisnis Sejahtera; PT Gema Lintas Benua (27.6%); and PT Sumber Aneka Sukses (14.9%).
