The above ratios have been computed based on information from the company and published accounts. Where applicable, some items have been reclassified according to PEFINDO's definitions.

PT Asuransi Bangun Askrida rated "idA+" with stable outlook

PEFINDO has assigned its "idA+" financial strength rating to PT Asuransi Bangun Askrida (Askrida). The outlook for the rating is "stable".

An insurer rated idA has strong financial security characteristics relative to other companies in Indonesia, but is somewhat more likely to be affected by adverse business conditions than insurers with higher ratings.

The plus (+) sign in a particular rating indicates that it is relatively strong within the respective rating category.

The rating reflects Askrida's strong synergy with its shareholders, strong capitalization, and sound liquidity. However, the rating is constrained by pressure on its loss ratio profile and the tight competition in its non-captive market.

The rating may be raised if Askrida makes a significant and sustainable improvement to its business position, including substantially developing its non-captive business, while consistently maintaining its financial profiles. The rating could be lowered if there is a substantial decline in its business position or if it suffers a considerable deterioration in its capitalization or profitability measures.

Askrida, whose role is to support national and regional insurance development, is 59.2% owned by regional development banks (BPDs), including several BPD pension funds, and 40.8% owned by provincial governments (PEMDA). It offers a wide variety of general insurance products such as coverage for fire, earthquakes, motor vehicles, credit insurance, personal accidents, cargo, construction, hull, surety, liability, and miscellaneous. It has a network of 41 operational offices covering most of Indonesia's provinces, and a workforce of 693 employees as of the end of 2017.
